LakeForestParkMontessori.com

# Welcome to Summer!

As a continuation of our Links to Learning® and Montessori curriculum, camp offers a fun-filled summer program for children ages 1 to 5. Each week, preschoolers jump into action, participating in fun and exciting activities and special events.

Preschoolers have the opportunity to go on one Field Trip a week. Some out of school adventures and some in-house learning opportunities.

Our preschoolers have the opportunity to expand their horizons during the summer, embarking on new adventures, and having fun!

Our Links to Learning® summer curriculum is designed to review and strengthen skills taught during the school year. Various academic activities will be integrated throughout your child's daily summer experience.

Our camp program will inspire your child's mind to engage, explore, create and stay active this summer!

# Weekly Themes

## Like a Champion

We will celebrate and get to know the helpers in our community. Our campers will also discover small ways that they too can be champions in their neighborhoods!

## Hands Around the World

Campers will go on an adventure around the world by learning about different cultures and discussing heritage. We can't wait to celebrate what makes each of us unique!

## Brain Games

Our campers will show off their problem solving skills and practice their fine motor skills through puzzles, word games, mathematics, sorting, stacking and more.

## Express Yourself

Self-expression is not only important for preschool development, but it is also a lot of fun. Our campers will express themselves through music, drama and dance.

## S.T.E.A.M Squad

Campers will discover a magical place where science, technology, engineering, art and math come together to ignite curiosity and problem solving skills.

## Color Me Happy

Explore the wonderful world of color! From painting, to sculpting, to drawing and more, campers mix colors and let their creativity run wild.

## Growing Greatness

Campers investigate all aspects of mother nature including weather, bugs, and habitats. Their green thumbs will be put to the test as they create their own mini gardens and learn about the life cycle of plants.

## Chef in the Making

Campers practice a variety of kitchen skills while creating delicious concoctions. Along with habits of self-help and good nutrition, they learn important academic, social and physical skills.

## Time to Fly

It's a bird, it's a plane...it's learning about how things fly! Whether it is a butterfly or a kite, we are getting into the science behind what it takes to fly.
